

Support Services Committee

June 21, 2012

John Schilling

The Support Services Committee met on May 29th and discussed the following:

- Punch lists and Contract closeouts for the North Wales and General Nash Elementary School Renovation Projects and the TV Studio HVAC Remediation project were discussed.
- Construction has begun on both, the NPHS Hot Water Heater and Inglewood Elementary School Additions and Renovation projects. Approval of PlanCon Part H for the Inglewood Project appears on tonight's action agenda.
- The request from Hatfield Township to allow additional storm water to flow through the storm sewer on the A. M. Kulp School property was discussed. Hatfield Township has agreed to install a new 24" pipe on the A. M. Kulp Property to accommodate the 100 year storm. Approval of the letter to Penn DOT regarding A.M. Kulp Elementary School appears on tonight's agenda.
- A reimbursement opportunity, with the submission of PlanCon Part H for the Natatorium Project at NPHS, was discussed. Assuming the state has the funds, reimbursement could begin to be received for this project. This discussion was moved to the Board Work session and approval also appears on tonight's action agenda
- Green Globes Certification from the GBI's Green Globes Building Performance Rating System could get the North Penn School District additional reimbursement for the Inglewood Elementary School Additions and renovations project. The committee moved this item to the work session for further discussion. A recommendation to authorize Bonnett Associates, Inc. to begin the certification process, for the purpose of determining our qualification for a Green Globes rating, appears on the agenda this evening.
- The committee heard an update on Energy Management initiatives including that the School District has realized \$742,000 reduction in energy costs to date for 2011-12. It was also reported that we anticipate an additional savings in the May and June. Additionally, as of April **ALL SCHOOLS** qualify as Energy Star labeled buildings.
- The committee asks for your support for the following:
 - Approval to Submit PlanCon H for the Inglewood Elementary School Additions and Renovations Project.
 - Approval to Submit PlanCon H for the NPHS Natatorium Project.
 - Approval of the letter to Penn DOT regarding A.M. Kulp Elementary School.
 - Authorization for Bonnett Associates, Inc. to begin the Green Globes certification process for the Inglewood Elementary School.

The next meeting of the Support Services committee is scheduled for Monday, June 25 at 6 p.m. at the Educational Services Center.
